Santa Barbara City College

Automotive Service and Technology

2017-18

Certificate of Achievement in Automotive Services and Technology

Our ten-month certificate program is similar to those offered at private trade schools. Students who desire to finish their schooling in that period of time will enroll in automotive courses only. A student program schedule will be from 8 to 12 a.m. daily and from 12:30 to 4:10 p.m. on Tuesdays and Thursdays. Students who have never had a high school level introductory Automotive class will need to enroll additionally in two introductory Automotive sections.

The program is certified by the National Institute for Automotive Service Excellence in all eight certification areas. Graduates will have learned sufficient basic material to be able to enter and progress in the field of Automotive repair. Part-time jobs are encouraged and many students will choose to enhance their school learning by working in an Automotive repair shop after school hours.

Careers in Automotive Services

The certificate program is designed for those desiring a career in the field of Automotive repair. The graduate can prepare to work as a technician, service writer, service manager, car salesperson, auto parts person, or service technician. Certificate completers often return to SBCC at night after employment to complete an Associate Degree.
