Welcome Message from the Interim Vice President, School of Extended Learning

Welcome to the Fall 2017 semester! Today brings us change, and we are excited to embrace a major new initiative. Our College President, our Board of Trustees, and SBCC Educational Programs support our effort to build a world-class and comprehensive, School of Extended Learning, that will benefit our community and adult learners. This new school will maximize tuition-free offerings and integrate pathways to our credit programs. We will continually evaluate our course offerings to ensure we are meeting the extended learning needs in our community.

In this schedule of classes, you will see course offerings for the Center for Lifelong Learning and an insert listing noncredit, tuition-free learning options. By Spring 2018, look for a School of Extended Learning schedule of classes where we will have integrated all our community programs, including both tuition-free and fee-based classes.

Thank you for your long-standing support of Santa Barbara City College, and helping us to remain a steadfast community partner. I look forward to leading our incredibly talented team through this transition, and serving you at the new School of Extended Learning.

Dr. Melissa V. Moreno

ARTS

➜ A Look Behind Art's Important Shifts in Style and Themes [NEW!]

Art is profoundly influenced by historical events. In the 1920s Picasso radically changed his style of painting from Cubism to a form of art recalling ancient cultures. Simultaneously artists throughout Europe rejected popular avant-garde movements to conform to a style of neutrality. What were the causes for this shift in the visual arts that continued through the 1940s? Examine the masterworks from France, Italy and Germany, and discover how artists were challenged to reflect the ever present shifts in cultural and political history. Enhance your art appreciation by recognizing the influences and motivation behind these celebrated masterworks.

➔ After the Fall: A Cultural History of Postwar Vietnam

We know the story of the Vietnam War but know very little about what happened after the Communists gained power. What role did the Viet Cong now play in the new regime? Where did able-bodied men go? Why did women stop wearing nail polish, when was 'suicide soup' served, and who were the only people to attend movies? Erin Graffy, researcher and author of award-winning history books, will bring you an eye-opening look at TET offensive, civilian life and the dramatic aftermath of the Vietnam conflict.
