Introduction

Santa Barbara City College’s approach to governance and decision-making is based on a partnership among Board representatives, faculty, staff, administration, and students. The constituent groups are united by a collective, shared vision that student success is the goal of everyone’s work at Santa Barbara City College (SBCC).

The purpose of this resource guide is to describe the governance and decision-making structures and processes by which SBCC ensures that there are opportunities for meaningful collaboration and that the voices of the constituent groups are heard in making decisions. This document includes the purpose, Membership, and reporting structure for each group.

This guide is regularly reviewed and updated to incorporate changes in structures, processes, names of groups, and other similar changes. In addition, the efficacy of the governance and decision-making structures and processes themselves are regularly assessed. Please refer to the Evaluation and Improvement section for details of these cycles.

Roles of Constituents in Governance and Decision-Making

Constituents at SBCC participate in making decisions appropriate in scope to their roles within the college. The role in participatory governance for each constituency described below is derived from the California Code of Regulations, SBCC Board Policies, and SBCC practices, procedures and job descriptions. The relevant sections of the California Code of Regulations are included in the appendix of this document.
Board of Trustees
The role of the Board of Trustees in governance and decision-making is to determine policy and to serve as SBCC’s legal and fiduciary body.

The Board of Trustees oversees and governs the total operations of the entire District in accordance with all applicable laws and regulations. As an independent policy-making body responsible for policies as well as legal and fiscal issues, the Board’s ultimate responsibility is to ensure that the SBCC mission is fulfilled and that SBCC’s financial resources are dedicated to providing sound educational programs.

The Board of Trustees consists of seven locally elected Trustees who represent areas within the District. One trustee is elected by the qualified voters from each of the seven trustee areas to serve four-year terms. The Board annually elects a president and vice president from among its representatives and the Superintendent/President serves as the Board Secretary.

A student trustee is elected annually in a general student election. The Student Trustee provides a student perspective on the issues facing the Board. The Student Trustee receives all materials sent to other representatives of the Board, except those pertaining to closed session matters; attends all open session board meetings; asks questions; participates in discussions; and casts an advisory, non-binding vote on the matters that come before the Board. California State Education Code Section 70902 identifies the Board of Trustees as the SBCC’s legal and fiduciary body and outlines associated responsibilities. The Board affirms its role and responsibilities in Board Policy 2200: Board Duties and Responsibilities, which details a list of specific duties, including selecting and appointing the Superintendent/President.

Superintendent/President
The authority delegated to this position by the Board of Trustees determines the role of the Superintendent/President in decision-making.

The Superintendent/President is the chief executive officer of SBCC and as the sole employee of the Board is responsible directly to the Board. The Board delegates to the Superintendent/President the executive responsibility for administering the policies adopted by the Board and executing all decisions of the Board requiring administrative action, as provided in Board Policy 2430: Delegation of Authority to Superintendent/President.
Faculty

The role of full-time and part-time faculty representatives in decision-making at SBCC is to participate in:

- The development of recommendations to the Superintendent/President and Board of Trustees on academic and professional matters as outlined in state regulations; and,
- The processes for developing recommendations that have or will have a significant effect on them.

The Academic Senate represents faculty representatives in academic and professional matters. As provided in Board Policy 2510: Participation in Local Decision-Making, the Board of Trustees recognizes the authority of the Academic Senate with respect to academic and professional matters in accord with provisions of Title 5 of the California Code of Regulations. In its policy, the Board agrees to consult collegially with the Academic Senate on the following academic and professional matters:

1. Curriculum, including the establishment of prerequisites and placing courses within disciplines;
2. Degree and certificate requirements;
3. Grading policies;
4. Educational program development;
5. Standards or policies regarding student preparation and success;
6. District and College governance structures as related to faculty roles;
7. Faculty roles and involvement in accreditation processes, including self-study and annual reports;
8. Policies for faculty professional development activities;
9. Processes for program review;
10. Processes for institutional planning and budget development; and,
11. Other academic and professional matters as mutually agreed upon between the governing board and the Academic Senate.

Faculty hiring processes are included as academic and professional matters and the Board has agreed to consult collegially with the Academic Senate on these processes.

A resource describing the role of the Academic Senate in governance and decision-making is the California Code of Regulations Title 5, Section 53200 included in the appendix of this document.
Classified and Confidential Staff

The role of classified and confidential\(^1\) staff representatives in governance and decision-making is to participate in the:

- Development of recommendations to the Superintendent/President on issues that have or will have a significant effect on them; and,
- Processes for developing those recommendations.

The specific matters identified as having a significant effect on classified staff are identified in the California Code of Regulations Title 5, Section 51023.5 included in the appendix of this document.

**Board Policy 2510 Participation in Local Decision-Making** affirms that recommendations and positions developed by classified and confidential staff will be given every reasonable consideration prior to action on a matter having a significant effect on them.

Students

The role of students in governance and decision-making at SBCC is to participate in:

- The development of recommendations to the Superintendent/President on issues that have or will have a significant effect on them; and,
- The processes for developing those recommendations.

The following specific matters are identified in the California Code of Regulations Title 5, Section 51023.7 as having a significant effect on students:

1. Grading policies;
2. Codes of student conduct;
3. Academic disciplinary policies;
4. Curriculum development;
5. Courses or programs that should be initiated or discontinued;
6. Processes for institutional planning and budget development;
7. Standards and policies regarding student preparation and success;
8. Student services planning and development;
9. Student fees within the authority of the District to adopt; and,
10. Any other District and college policy, procedure or related matter that the District governing board determines will have significant effect on students.

\(^1\) California Government Code section 3540.1, subsection (c), defines a "confidential employee" as “any employee who is required to develop or present management positions with respect to employer-employee relations or whose duties normally require access to confidential information that is used to contribute significantly to the development of management positions.”
The Board recognizes the Santa Barbara City College Associated Students organization as the official voice for students (Board Policy 5400: Associated Student Government). In accordance with Board Policy 2510 Participation in Local Decision-Making, the Associated Students organization is given an opportunity to participate effectively in the formulation and development of policies and procedures that have a significant effect on them, and the recommendations and positions of the Associated Student organization are given reasonable consideration.

**Administrators**

The role of administrators in governance and decision-making at the college is determined by the scope of responsibility and authority delegated in job descriptions for administrative positions.

Although there are position-specific representative duties, in general, SBCC administrators are responsible for:

- Planning, organizing, controlling and directing assigned programs;
- Coordinating and directing communications, personnel, projects and resources to meet college needs and oversee assigned activities;
- Assuring that program implementation satisfies established college, state and federal standards, requirements, laws, codes, rules, regulations, policies and procedures;
- Supervising and evaluating the performance of assigned faculty and classified personnel and assure that the work of these employees complies with established standards, requirements, and procedures;
- Interviewing potential employees and recommend hiring, transfers, and reassignment;

- Providing consultation and technical expertise to administrators, faculty and others concerning assigned programs and related standards, requirements, practices, schedules, strategies, plans, goals, objectives, laws, codes, regulations, policies and procedures; and,
- Developing and preparing the annual preliminary budget for assigned programs; analyze and review budgetary and financial data.
Types of Groups
The foundational principles guiding governance and decision-making at SBCC are: (1) a primary focus on students and their academic success; and (2) respect for the role and scope of authority for each constituent group. Key committees have representation from the various constituent groups and representatives understand that they are responsible to their particular constituency in two ways: to share input from the constituent group to the committee and to share information and dialogue from the committee with their constituent group. Committee representatives also understand that their collective work product is a recommendation that is subsequently forwarded to the next individual or group in the decision-making process.

The SBCC groups that provide recommendations in governance and decision-making processes are organized into three categories based on the group’s responsibilities and its source of authority. The Membership in each type of group is determined by the source of authority on which the group is based. All are essential to the involvement of the SBCC community serving as conduits of information both to and from the constituents.

Governance Groups
Governance groups are those whose authority is derived from law and regulation, either as written expressly in the law/regulation or as delegated by another group that possesses said authority. Representatives of governance groups represent specific constituencies and as such, serve as a liaison to bring information from the constituent group into the dialogue and from the governance group back to their constituents. Examples of governance groups are the Academic Senate, Associated Student Government, and Classified Consultation Group.

Organizational Groups
Organizational groups assist the Superintendent/President in implementing the Board’s plans and policies by coordinating operational, procedural, and policy implementation. The authority for the representatives of organizational groups is derived from the Board of Trustees or the Superintendent/President through the assignment of responsibilities on job descriptions and appointment to positions. Membership in SBCC organizational groups is determined by the position held within the college. Examples of organizational groups are Board Policies and Administrative Procedures, Student Equity Committee, and the Budget and Resource Allocation Committee.

Ad Hoc Groups
Ad Hoc Groups are formed to create a venue for dialogue and work on topics or projects that require timely and concentrated energy. Instead of being required by law or regulation, these
groups are charged by the Superintendent/President or a governance group to perform specific functions that benefit the entire college. Membership in an ad hoc group is either voluntary or by appointment. Ad hoc groups report their recommendations back to the Superintendent/President or the governance group that formed them.

The [College Committees website](#) contains a complete list of college committees.
SBCC Governance Groups

Governance groups are those whose authority is derived from law and regulation, either as written expressly in the law/regulation or as delegated by another group that possesses said authority. Evaluation Cycle and Timeline

There are two interrelated evaluation and improvement cycles designed to insure the accuracy of this document and the effectiveness of the governance process:

1. **Documentation Review (Annual):** This document is reviewed by the College Planning Council for clarifications and corrections. Updates such as changes in names and governance structures are made in order to insure that the document is accurate and current.

2. **Governance Process Review (Bi-annual):** The efficacy of the governance processes and structures themselves are evaluated. This is typically done through a survey of each governance group conducted by the Office of Institutional Research, Assessment, and Planning. The survey results are then discussed with each of the groups, and evaluated against the purpose and goals of the group. The group then makes structural or process changes that will improve their effectiveness. This review is typically done in February so that any changes can be reflected in the annual April update of this document.

Refer to the Revision History in Appendix A of this document for a list of completed and scheduled updates.

SBCC’s Institutional Assessment Calendar lists these and other processes the College uses to regularly evaluate its effectiveness.

Title 5 § 53200. Definitions.
For the purpose of this Subchapter:

a “Faculty” means those employees of a community college district who are employed in positions that are not designated as supervisory or management for the purposes of Article 5 (commencing with Section 3540) of Chapter 10.7 of Division 4 of Title 1 of the Government Code, and for which minimum qualifications for hire are specified by the Board of Governors.

b “Academic senate,” “faculty council,” and “faculty senate” means an organization formed in accordance with the provisions of this Subchapter whose primary function, as the representative of the faculty, is to make recommendations to the administration of a college and to the governing board of a district with respect to academic and professional matters. For purposes of this Subchapter, reference to the term “academic senate” also constitutes reference to “faculty council” or “faculty senate.”

c “Academic and professional matters” means the following policy development and implementation matters:
   1 curriculum, including establishing prerequisites and placing courses within disciplines;
   2 degree and certificate requirements;
   3 grading policies;
   4 educational program development;
   5 standards or policies regarding student preparation and success;
   6 district and college governance structures, as related to faculty roles;
   7 faculty roles and involvement in accreditation processes, including self-studies and annual reports;
   8 policies for faculty professional development activities;
   9 processes for program review;
   10 processes for institutional planning and budget development; and,  
   11 other academic and professional matters as are mutually agreed upon between the governing board and the academic senate.

d “Consult collegially” means that the district governing board shall develop policies on academic and professional matters through either or both of the following methods, according to its own discretion:
   1 relying primarily upon the advice and judgment of the academic senate; or
   2 agreeing that the district governing board, or such representatives as it may designate, and the representatives of the academic senate shall have the
obligation to reach mutual agreement by written resolution, regulation, or policy of the governing board effectuating such recommendations.

Title 5 § 53201. Academic Senate or Faculty Council
In order that the faculty may have a formal and effective procedure for participating in the formation and implementation of district policies on academic and professional matters, an academic senate may be established at the college and/or district levels.

Title 5 § 53202. Formation; Procedures; Membership
The following procedure shall be used to establish an academic senate:

a. The full-time faculty of a community college shall vote by secret ballot to form an academic senate.

b. In multi-college districts, the full-time faculty of the district colleges may vote on whether or not to form a district academic senate. Such vote shall be by secret ballot.

c. The governing board of a district shall recognize the academic senate and authorize the faculty to:
   1. Fix and amend by vote of the full-time faculty the composition, structure, and procedures of the academic senate.
   2. Provide for the selection, in accordance with accepted democratic election procedures, the representatives of the academic senate.

e. The full-time faculty may provide for the membership and participation of part-time faculty representatives in the academic senate.

f. In the absence of any full-time faculty representatives in a community college, the part-time faculty of such community college may form an academic senate.

Title 5 § 53203. Powers.

a. The governing board of a community college district shall adopt policies for appropriate delegation of authority and responsibility to its college and/or district academic senate. Among other matters, said policies, at a minimum, shall provide that the governing board or its designees will consult collegially with the academic senate when adopting policies and procedures on academic and professional matters. This requirement to consult collegially shall not limit other rights and responsibilities of the academic senate which are specifically provided in statute or other Board of Governors regulations.

b. In adopting the policies and procedures described in Subsection (a), the governing board or its designees shall consult collegially with representatives of the academic senate.
While in the process of consulting collegially, the academic senate shall retain the right to meet with or to appear before the governing board with respect to the views, recommendations, or proposals of the senate. In addition, after consultation with the administration of the college and/or district, the academic senate may present its views and recommendations to the governing board.

The governing board of a district shall adopt procedures for responding to recommendations of the academic senate that incorporate the following:

1. In instances where the governing board elects to rely primarily upon the advice and judgment of the academic senate, the recommendations of the senate will normally be accepted, and only in exceptional circumstances and for compelling reasons will the recommendations not be accepted. If a recommendation is not accepted, the governing board or its designee, upon request of the academic senate, shall promptly communicate its reasons in writing to the academic senate.

2. In instances where the governing board elects to provide for mutual agreement with the academic senate, and agreement has not been reached, existing policy shall remain in effect unless continuing with such policy exposes the district to legal liability or causes substantial fiscal hardship. In cases where there is no existing policy, or in cases where the exposure to legal liability or substantial fiscal hardship requires existing policy to be changed, the governing board may act, after a good faith effort to reach agreement, only for compelling legal, fiscal, or organizational reasons.

An academic senate may assume such responsibilities and perform such functions as may be delegated to it by the governing board of the district pursuant to Subsection (a).

The appointment of faculty representatives to serve on college or district committees, task forces, or other groups dealing with academic and professional matters, shall be made, after consultation with the chief executive officer or his or her designee, by the academic senate. Notwithstanding this Subsection, the collective bargaining representative may seek to appoint faculty representatives to committees, task forces, or other groups.

Title 5 § 53204. Scope of Regulations.
Nothing in this Subchapter shall be construed to impinge upon the due process rights of faculty, nor to detract from any negotiated agreements between collective bargaining representatives and district governing boards. It is the intent of the Board of Governors to respect agreements between academic senates and collective bargaining representatives as to how they will consult, collaborate, share, or delegate among themselves the responsibilities that are or may be delegated to academic senates pursuant to these regulations.
Title 5 § 53205. Duties Assigned by Administration and Governing Board.
No content included in this Regulation other than:
Note: Authority cited: Sections 66700, 71020, 71062 and 71079, Education Code.

      through ratification by local academic senates or faculty councils so that the
      community college faculty of California may have a formal and effective procedure for
      participating in the formation of state policies on academic and professional matters.
   b The Board of Governors recognizes the Academic Senate of the California Community
      Colleges as the representative of community college academic senates or faculty
      councils before the Board of Governors and Chancellor's Office.

Title 5 § 51023.5. Staff.
   a The governing board of a community college district shall adopt policies and
      procedures that provide district and college staff the opportunity to participate
      effectively in district and college governance. At minimum, these policies and
      procedures shall include the following:
      1 Definitions or categories of positions or groups of positions other than faculty
         that compose the staff of the district and its college(s) that, for the purposes of
         this section, the governing board is required by law to recognize or chooses to
         recognize pursuant to legal authority. In addition, for the purposes of this
         section, management and non-management positions or groups of positions
         shall be separately defined or categorized.
      2 Participation structures and procedures for the staff positions defined or
         categorized.
      3 In performing the requirements of subsections (a)(1) and (2), the governing
         board or its designees shall consult with the representatives of existing staff
         councils, committees, employee organizations, and other such bodies. Where
         no groups or structures for participation exist that provide representation for
         the purposes of this section for particular groups of staff, the governing board
         or its designees, shall broadly inform all staff of the policies and procedures
         being developed, invite the participation of staff, and provide opportunities for
         staff to express their views.
      4 Staff shall be provided with opportunities to participate in the formulation and
         development of district and college policies and procedures, and in those
         processes for jointly developing recommendations for action by the governing
         board, that the governing board reasonably determines, in consultation with
         staff, have or will have a significant effect on staff.
      5 Except in unforeseeable, emergency situations, the governing board shall not
         take action on matters significantly affecting staff until it has provided staff an
opportunity to participate in the formulation and development of those matters through appropriate structures and procedures as determined by the governing board in accordance with the provisions of this Section.

6 The policies and procedures of the governing board shall ensure that the recommendations and opinions of staff are given every reasonable consideration.

7 When a college or district task force, committee, or other governance group, is used to consult with staff regarding implementation of this section or to deal with other issues which have been determined to significantly affect staff pursuant to subdivision (a)(4), the appointment of staff representatives shall be made as follows:

A The exclusive representative shall appoint representatives for the respective bargaining unit employees, unless the exclusive representative and the governing board mutually agree in a memorandum of understanding to an alternative appointment process.

B Where a group of employees is not represented by an exclusive agent, the appointment of a representative of such employees on any task force, committee or governance group shall be made by, or in consultation with, any other councils, committees, employee organizations, or other staff groups that the governing board has officially recognized in its policies and procedures for staff participation.

C When the task force, committee or governance group will deal with issues outside the scope of collective bargaining, any other council, committee or staff group, other than an exclusive agent, that the governing board has officially recognized in its policies and procedures for staff participation may be allowed to designate an additional representative. These organizations shall not receive release time, rights, or representation on such task forces, committees, or other governance groups exceeding that offered to the exclusive representative of classified employees.

D In all cases, representatives shall be selected from the category that they represent.

b In developing and carrying out policies and procedures pursuant to subsection (a), the district governing board shall ensure that its actions do not dominate or interfere with the formation or administration of any employee organization, or contribute financial or other support to it, or in any way encourage employees to join any organization in preference to another. In addition, in order to comply with Government Code sections 3540, et seq., such procedures for staff participation shall not intrude on matters within the scope of representation under section 3543.2 of the Government Code. Governing boards shall not interfere with the exercise of employee rights to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations. Nothing in this section shall be construed to impinge upon or detract from any negotiations or
negotiated agreements between exclusive representatives and district governing boards. It is the intent of the Board of Governors to respect lawful agreements between staff and exclusive representatives as to how they will consult, collaborate, share, or delegate among themselves the responsibilities that are or may be delegated to staff pursuant to these regulations.
