Message from the President - March 2017

Message from the President	-	March 2017

I'm thrilled to report a significant College waypoint: Our new vision statement! While our "mission statement" describes current College functions, the vision statement is about our future. It is a public declaration of our achievable aspirations, our journey ahead, our future state, our goals, and our values. Given what a vision statement represents, it is easy to see why its development is taken very seriously in the SBCC community.

I want to personally thank you for your continued support of our Community's College! Please share student learning outcome of which we can all be very proud.
