

## Associated Degree in Nursing

Student Selected: Greta Rennacker

Submitted by: Michelle Gottwald

Greta will be graduating from the ADN program this May. Not only is she a great student but she is dedicated to her peers, program and nursing profession. She always has the best interest of her classmates in mind. Always volunteers to lead a committee, help out someone by switching her schedule, and generally is a wonderful spirit to be around. She has participated in countless volunteer opportunities including at the NICU at Cottage during the summer, organized holiday toy drives for Providence Cedars-Sinai Tarzana Medical Center, volunteered with the American Heart Association, the Best Day Foundation (which works with disabled children and provides them with a fun day at the beach), and as a medical aid for numerous walks here in town. She has also been involved with the Student Nurses Association (SNA) since September 2018, and is currently the President.

### Greta's Words of Gratitude:

To be honored with this award is incredibly humbling. I am extremely grateful to the staff and faculty who have helped me become the (soon-to-be!!) RN I am. I would not be where I am today without their guidance and support. Thank you, thank you, thank you!
