Haley Morehart

Bruce Oda

Ms. Haley Morehart was selected by the Radiographic and Imaging Sciences Department as the recipient of the Outstanding Student of the Year Award and the Edward Mallinckrodt Award of Excellence. Ms. Morehart embodies the definition of outstanding! Her aptitude for learning has earned her an accumulative program GPA of 3.5 in one of the most rigorous programs at SBCC. As the youngest student in her class, she excelled in her didactic and clinical performance. Ms. Morehart's clinical instructors described her as, "knowledgeable with a keen eye and understanding of patients' needs. Haley has a great personality, well-liked by the radiologic technologists that mentored her. Furthermore, Haley produced quality diagnostic images." Imaging departments would benefit by having Ms. Haley Morehart on their team. Haley, I am honored to have worked with you and proud to call you a peer.

Haley's Words of Gratitude:

I am extremely honored to be receiving the Outstanding Student Award. My time here at Santa Barbara City College in the Radiology program was nothing short of amazing. The professors, clinical supervisors and my classmates were all very helpful, encouraging, and kind. I will take the skills that I have acquired during this vigorous two year program, and apply them in my future career. I plan to further my education and earn my Bachelors Degree while working as a Radiologic Technologist. After completing the prerequisites and being on a two year waiting list for this coveted program, conquering the Radiology program at Santa Barbara City College has been my greatest achievement thus far.
